Partner Pre-Call Checklist

For the Sage Connect/ Sage 200 EA Program

1 | **Ensure your Partner licence is set up for subscription**

Ensure you are using your new Sage 200 Partner subscription copy. Details on how to complete the process were shared in this communication.

2 | **Ensure you have Sage 200 2024 R2 installed**

Details of where to obtain the downloads, and links to key documentation such as system requirements can be located in our Sage 200 2024 R2 release communication.

3 | **Set up a unique set of demo data**

It's important that we don't fill Sage Network with lots of Homestyle kitchen data, and that we can tell the difference between real & test data. You must follow this guidance to set up your test data. Please also note the guidance on users and their setup which is in the same article.

4 | **Email your serial number to**

Email your serial number to Sage200SageNetworkEarlyAdopter@sage.com

5 | **Wait for your onboarding call**
